THE REPORT.

In the opinion of some of the tobacco men who were discussing the matter yesterday, the sale has already been made. This, however, was a matter of mere speculation. All seemed to agree that whether completed or not, the deal was in progress.

As stated above, one thing which gives cast to the rumors, is the peculiar definitness with which they come. There is not simply a baid assertion that the plant is about to be sold, but the very details are given. It is stated for instance, that the Continental obtains control of a three-fourths interest in the concern, and that Mr. Butler holding the remaining fourth will have the management of the factory for the trust.—The price paid by the Continental for its share is fixed at \$175. will have the management of the factory for the trust.—The price paid by the Continental for its share is fixed at \$175.000, which is said to be an excellent figure. This three-fourths interest scheme, it is further stated, is one frequently adopted by the big trust. Tha great Reynolds plant in North Carolina is run on this basis.

Nothing is said about the Patterson factory, which, with Butler and Bosher, was sold out periodically by the gossins. Hitherto the two firms have been connected in the rumors in almost every

In some quarters yesterday the reported sale of Butler and Bosher caused a distinct feeling of depression. It would mean the removal of another of the fast disappearing group of independent factories which are serving to maintain the general trade just now.
